Aviation Accreditation Board International July 19, 2024

SUMMARY OF RECENT ACTION

The Aviation Accreditation Board International (AABI) is required to inform the public about its accreditation decisions. One of the ways AABI does this is to provide the public with information about the accreditation decision process, the nature and scope of AABI accreditation activity and the importance and value of accreditation. AABI also provides the public with detailed descriptions of its accreditation policies and procedures by publishing its Accreditation Criteria Manual (Form 201) and Policies & Procedures Manual (Form 225), along with all the AABI forms, on its website: <http://www.aabi.aero/forms.html> (Standard 2.A., October 4, 2021, *CHEA Standards and Procedures for Recognition*).

Interim Report:

HanSeo University

The Board action was to accept the institution's responses to Recommendations 2, 3, and 5, with no further reports required for *those* Recommendations.

A second interim report is required, due January 6, 2025, which provides the evidence specified below for Recommendation 6:

Recommendation 6: Develop a process for industry APAC members to review course syllabi and ensure continuous reviews (Criterion 3.9.1).

Provide evidence of the restructuring of the Industry Advisory Group (Aviation Programs Advisory Committee) and the activities of this committee in reviewing course syllabi.
