## Aviation Accreditation Board International February 13, 2025

# SUMMARY OF RECENT ACTION

The Aviation Accreditation Board International (AABI) is required to inform the public about its accreditation decisions. One of the ways AABI does this is to provide the public with information about the accreditation decision process, the nature and scope of AABI accreditation activity and the importance and value of accreditation. AABI also provides the public with detailed descriptions of its accreditation policies and procedures by publishing its Accreditation Criteria Manual (Form 201) and Policies & Procedures Manual (Form 225), along with all the AABI forms, on its website: <http://www.aabi.aero/forms.html> (Standard 2.A., October 4, 2021, *CHEA Standards and Procedures for Recognition*).

### **Initial Accreditation:**

#### **Prince Sultan University**

The Board action was to provisionally accredit the following program for a period of one-year:

B.S. in Aviation Management (AABI Aviation Management)

To remove provisional status, AABI must conduct a physical visit, which was completed January 16-23, 2025. A Visiting Team Report has been submitted to this office and subsequently the institution MUST submit its response to that report by June 6, 2025. The AABI Board of Trustees will review and vote on the removal of provisional status if PSU meets AABI criteria on July 17, 2025, in Kalamazoo, Michigan.
